The Vogelsang cleaning cabinet series CleanUnit MSV complements interior cleaning facility infrastructures in train care depots or other public transport facilities ideally.

The cabinet is made entirely from durable, stainless steel material.

In addition to the compulsory cleaning facilities, which include a stainless steel sink and media taps, the cleaning cabinet provides a separate storage compartment for cleaning equipment and required sanitation products.

The sink compartment of the CleanUnit is fitted with a robust aluminium roller blind.

As an alternative to a storage water heater, a variety of instantaneous water heaters are available for local hot water production.

Optionally the cleaning cabinet can be upgraded with automatic dispensers. These can provide a ready-to-use washing solution by simple push-button operation.

Heating elements ensure availability even at low outside temperatures.

The CleanUnit also includes an electrical combination socket for connecting external cleaning devices.

**Advantages**
- Decentralized cleaner supply station
- Cabinet in stainless steel design
- Valves and fittings mounted behind a protective cover
- Comfortable local hot & cold water supply with scald protection
- Integrated storage compartment
- Antifreeze heating allows outdoor operation
- Upgradeable combination socket

**Options**
- Clean agent dispensing unit [1-3 units]
- Instantaneous water heater
  - 12 kW 400 V 50 Hz, capacity approx.: 5 l/min*
  - 3.5 kW 230 V 50 Hz, capacity approx.: 1.7 l/min*
- Trace heater for water provided in the base
- Electrical socket combination:
  - CEE socket 3 x 400 V 16 A IP44
- First-Aid equipment
- Insulated support for height adjustment between foundation and elevated platforms
- Locking system: key cylinders
- Handwash soap dispenser
- Mounting frame for cast-in-place foundations or pre-fabricated one-piece foundation base
- Residual water collection & draining upgrade kit eliminating the need for gravity drainage at the station
- Additional thermal insulation for ambient temperatures as low as -25 °C

**Standard specifications**
