

## PRESS RELEASE

### **Vogelsang at Busworld in Brussels with solutions for clean wastewater disposal**

- **Flexible practical pump technology for bus companies**
- **Patented suction nozzle for a hygienic disposal process**

**Essen/Oldb., September 3, 2019 – [Vogelsang GmbH & Co. KG](http://www.vogelsang.com)** will be at **Busworld from 18 to 23 October (hall 1, booth 168)** with its RoadPump systems for clean wastewater disposal for coaches. The solutions are suited to bus companies that want to dispose the wastewater from their coaches professionally and cleanly at their own depot, for example. The systems can also be adapted to the user's requirements. The RoadPump Eco is designed as a mobile wastewater disposal system, which is an ideal affordable solution for smaller bus companies. As well as wastewater disposal, the stationary RoadPump Easy system can also supply coaches with flushing water.

#### **Hygienic disposal process with the BusPlug**

Wastewater is collected in the CollectingMax drip pan and then pumped into the sewage system or into a collection tank and transported to the sewage treatment plant. Bus companies can also fit their busses with the BusPlug. This patented suction nozzle is attached to the wastewater tank. This allows bus toilet tanks and extraction stations to be connected with a hose. This continuous disposal system prevents soil contamination and unpleasant odours. The RoadPump disposal systems are fitted with a Vogelsang rotary lobe pump of the VX series. The pump has a particularly compact design and is resistant to foreign matter in waste water such as toilet paper.

**Vogelsang at Busworld, 18 - 23 October 2019, Brussels: Hall 1, booth 168.**

**About Vogelsang:**

Vogelsang GmbH & Co. KG develops, produces and distributes technically high-quality machines that are easy to maintain. Its head office is located in Essen/Oldenburg in Lower Saxony, Germany. Founded in 1929 as a manufacturer of agricultural machinery, the company has grown to become a specialist in individually configurable machines for the wastewater, agricultural, biogas, industrial and traffic sectors. At present, the mid-sized, innovative family business employs about 1.000 people worldwide. Vogelsang ensures the highest production quality through its research, development and manufacturing operations at its location in Germany. As an internationally oriented machine construction company, Vogelsang also operates manufacturing centers domestically and abroad. A continuously growing network of subsidiaries and representatives allows Vogelsang to be present in more than 25 locations worldwide, in all European countries and important industrialized nations in the world. This year the company celebrates its 90th anniversary and has been awarded the title of "Germany's innovation leader" by the Prognos AG economic research institute.
